

Postdoc Researcher Position

Department of Computer Science
Missouri University of Science and Technology
Rolla, Missouri, USA

One Postdoctoral Researcher position is available at the **SAINT (Securing Artificial Intelligence and InterNet of Things) Lab**, Department of Computer Science, Missouri University of Science and Technology, USA. The appointment will be one to two years with a renewable option based on job performance. The salary will be competitive and commensurate with the applicant's qualifications and experience.

Qualifications of applicants include:

- A PhD degree in computer science/engineering, information science/engineering, electrical/electronic engineering, or a related discipline from a decent university;
- Strong publication record in **Internet of Things**, **Machine Learning**, or **Security**;
- Excellent analytical and critical thinking skills;
- Competency in mathematics skills;
- Good hands-on skills (e.g., experience in Raspberry Pi or Arduino development, machine learning and/or deep learning techniques);
- Competency in English (reading, writing, speaking).

Interested candidates should email their application consisting of

- (1) a cover letter
- (2) a current curriculum vitae
- (3) academic transcripts
- (4) a research statement (if available)
- (5) recommendation letters (if available)
