

Postdoc Applications Open

Department of Computer Science
Missouri University of Science and Technology
Rolla, Missouri, USA
<https://cs.mst.edu>

One Postdoctoral researcher position is available at the **SAINT (Securing Artificial Intelligence and InterNet of Things) Lab**, Department of Computer Science, Missouri University of Science and Technology, USA. The appointment will be one to two years with a renewable option based on satisfactory job performance and availability of funding grants. The salary will be competitive and commensurate with the applicant's qualifications and experience.

Qualifications of applicants include:

- A PhD degree in computer science/engineering, information science/engineering, electrical/electronic engineering, or a related discipline from a decent university;
- Strong publication record in **Internet of Things, Machine Learning, or Security**;
- Competency in mathematics;
- Competency in building IoT/ML prototypes with IoT devices (e.g., Raspberry Pi, Arduino) and/or ML libraries (e.g., scikit-learn, TensorFlow, Keras, Pytorch);
- Excellent analytical and critical thinking skills;
- Competency in English (reading, writing, speaking).

Interested candidates should email their application consisting of

- (1) a cover letter,
- (2) a current curriculum vitae,
- (3) a research statement
