Ph.D. Student Positions

**Department of Computer Science
Missouri University of Science and Technology
MO 65401, USA**

The **SAINT (Securing Artificial Intelligence and InterNet of Things) Lab** of Department of Computer Science at Missouri University of Science and Technology is seeking self-motivated and capable applicants for the Ph.D. program in computer science. The students will join the SAINT lab and conduct cutting-edge research in the areas of **Machine Learning**, **Internet of Things**, and **Cyber Security**.

Successful applicants will be offered Graduate Research Assistantship (GRA) which includes monthly stipends and tuition coverage.

Qualifications:

- A bachelor or master's degree in computer science/engineering, information science/engineering, electrical/electronic engineering, or a related discipline, from a decent university with a decent GPA.
- Reliable **research experience** in at least one of the following areas: Machine Learning, Deep Learning, Statistical Learning, Data Mining, Internet of Things, Computer Networks, Wireless Networks, Cybersecurity, Network Security, Information Security.
- Good **mathematical** caliber.
- Competency in **English** (writing and speaking).
- Excellent programming skills in at least one modern programming language.

How to apply:

Interested candidates should electronically submit their application consisting of:

1) curriculum vitae
2) academic transcripts
3) GRE/TOEFL/IELTS/Duolingo scores

4) publications if available
5) recommendation letters if available
6) other documents (awards, etc.) if available
